# ***Curriculum for Rural Engagement Course in Teacher Education***

## ***Introduction***

The proposed curriculum has been developed as a part of group discussions held with Teacher Educators from across nine Telangana State Universities. The teachers increasingly work in rural schools in the current scenario. They need to be groomed to handle the rural communities which send their wards to the schools. Hence curriculum inputs designed to equip trainee teachers or students of teacher education programmes to engage with the rural communities' forms an important input in teacher education curriculum. This could be offered as a compulsory practical course to all the students in order to bridge the gap between the expectations and actual practices of teachers in rural settings. It is felt important, in the context of National Curricular Framework for Teacher Education 2005 as well as National Curriculum Framework 2005, focusing on construction of knowledge, there is a need to integrate the two important aspects viz., living and learning.

Unlike the other forms of education, teacher education has a variety of objectives that makes it a unique and a practicing profession to be pursued with intensive involvement with local communities apart from the students. Imparting adequate knowledge on the subject matter, equipping the prospective teachers with pedagogic skills, enabling the teacher to acquire understanding of child psychology, developing proper attitudes towards teaching, enabling teachers to make use of proper instructional facilities, enabling the teachers to understand the significance of individual child differences and take appropriate steps for their optimum development and development of children's ability to provide satisfaction to the parents are some of the major objectives of teacher education. This is facilitated by community engagement and orientation in community engagement.

## ***Characteristics***

The following core characteristics form the basic framework of the community based learning model. They are prime factors which are considered while developing the curriculum for rural engagement of students of teacher education.

1. Mutual respect for teacher, student and community
2. Creating a sense of community belongingness in the class room
3. Ability of being warm, accessible, enthusiastic and caring
4. Setting up a higher standard than the usual in community engagement
5. Perennial love for learning the context
6. Ability of being a skilled leader in engaging with the community
7. Ability to shift gears as per the community response
8. Collaboration with the counterparts on a continuous basis
9. Ability to maintain professional decorum

## ***Curriculum Design***

- Objectives
- Module Development
- Methodology
- Assessment
- Outcomes

## *Objectives*

The following objectives have been framed for the proposed curriculum for teacher education.

1. Understand the concept of community engagement in teacher education
2. Explain the community engagement aspects of Indian Constitution
3. Know the school education programmes and policies of Telangana State which have community engagement aspects
4. Discriminate traditional from constructivist approaches of community engagement
5. Train in usage of dialogic method of community engagement
6. Train in usage of organic intellectual approach for community engagement
7. Experiential learning of best practices in community engagement
8. Participate effectively in the community service

## *Core Competency Development*

Community engagement - Students develop an intellectual understanding of the civic engagement field. Experience, coupled with critical reflection, provides opportunities for transforming our perspectives.

Community-based research - Students learn to analyze community and organizational problems and needs, and to develop creative solutions. Respect. Meeting people where they are. We are all learners. We all have the capacity for greatness.

Social justice - Students learn about social justice issues from local and global perspectives and develop a nuanced understanding of the history and political and cultural contexts of these issues. Educating ourselves and our community in order to understand power, privilege, and oppression and to collectively envision and build a more equitable and just society.

Appreciation of diversity and capacity to work with diverse constituents - Students consider their own and others' social and cultural group identities. Students develop interpersonal and intercultural competencies to work effectively with people from a broad range of backgrounds. All people, including students, faculty, staff, and community members, have a wide range of social identities. Welcoming people of diverse backgrounds and perspectives prepares us for global citizenship.

Leadership - Students hone their skills in facilitating and working within teams. They learn and practice networking, conflict resolution, consensus-building, and negotiation skills, facilitating relationships and supporting community-building processes

Experience: Experience, coupled with critical reflection, provides opportunities for transforming our perspectives. The Community Engagement Program is one step along the journey of lifelong learning.

Dialogue: Learning occurs through the exchange of ideas, active listening, and challenging assumptions.

Assets-Based Perspective: Actively seeking the strengths in people and in communities and working to develop those strengths. Pursuing positive changes in ourselves, our institutions, and our communities.

## *Rationale*

Community engagement of teacher educator is essential as the students of teacher education are to be equipped with required skills to engage meaningfully for learning skills required professional teacher education. They lack empathy and compassion and end up being indifferent. Hence, this course would make the B Ed education contextual and effective with the community setting with social relationships taken into consideration. The teachers transacting the curriculum need to contextualise the subject matter and empathise with the learning context of students in their community.

## *Proposed Model of Curriculum*

This is designed as a two credit course of one semester and comprises of one credit for theory and one credit for practicum with fifty marks.

<b>S.N</b>	<b>Module Title</b>	<b>Module Content</b>	<b>Teaching/ Learning Methodology</b>	<b>Number of Classes</b>
